

Spedeworth Motorsports are delighted to confirm that CP Dynes will be the principle sponsor of the National Hot Rod Championship of the World for 2012 and 2013.

CP Dynes are one of the leading deep drainage and large bore specialists in the UK and Ireland. Since their inception they have been renowned for producing excellent standards of work, combined with a high quality service on a diverse range of projects, by the safest means possible.

CP Dynes have invested a significant sum to secure this two-year sponsorship deal and their investment has enabled Spedeworth Motorsports to negotiate a deal to see this year's World Championship Final being shown on Sky Sports. CP Dynes will benefit from a generous sponsorship package which has been developed in conjunction with Spedeworth's Sales and Marketing Manager Mark Butler who has worked closely with CP Dynes to secure this deal, as well as several others which will be announced in due course.

Mark Butler has secured significant sponsorship for many of the races at this year's Spedeweekend which will be held at Foxhall Stadium, Ipswich on July 7th & 8th. There are limited opportunities available for anyone who wishes to promote their business by sponsoring an event at short oval motorsport's premier event – but time is running out!

Spedeworth Motorsports would like to thank CP Dynes and all of our new and existing Spedeworth partners for their support – we look forward to a long and mutually beneficial business relationship.
